Villa: Project essential ingredient is the most current feature of modern design: light wood, a material which is widely used in the interior design of all the villas. Eco-friendly furniture is made of Indonesian teak and the elegantly shaped furniture from Bali is accentuated by clear lines and architecture, fulfilling all the criteria for contemporary style and comfort. When you enter any of the villas, the first thing you see is a tall waterfall at the entrance, along with stonework and handmade wall decorations. In addition to the living space, the villas offer infinity pools with Jacuzzi as well as spacious gardens with trees and patios.
